NB: The absence of export during Q3 09 is due to the change of management of "Grupo S.O.S" in Madrid, requiring a few months of adaptation to take over the marketing activity. There was only one residual activity of the local sales of various products. The absence of export in Q3 11 is due to the suspension of operations of the same Grupo SOS company in French Guiana.

## Indicators of vulnerability of the households and the businesses

### Over indebtedness cases (quarterly data)

Source : IEDOM

N.B : The fact that the number of eligible cases sometimes exceeds the number of submitted cases is due to the time needed to deal with the cases (over-indebtedness files can be submitted in a given quarter and be processed during the following one).

### Ban on writing cheques (quarterly data)
