The project "Comptes économiques rapides pour l'Outre-mer" (Cérom) was born in 2003 under the leadership of seven institutions - the National Institute of Statistics and Economic Studies (Insee), the French Development Agency (AFD) the Issuing Institute of Overseas Departments (Iedom), the Overseas Issuing Institute (Ieom), the Institute of Statistics of French Polynesia (ISPF), the Department of Planning and Economic Forecasting of French Polynesia (SPPE) (now dissolved), and the Institute of Statistics and Economic Studies in New Caledonia (Isee).

Its objectives are the early release of regional accounts using fast modelling methods, the modelling of the development of overseas economies, and the publication of macroeconomic and thematic analyzes of overseas departments and communities.

If specified, the data presented is seasonally adjusted (SA) and working days adjusted (WDA). The raw data sets are available in the appendices of the Iedom publication "Tendances conjoncturelles", and in the Insee publication "Conjoncture tourisme en Guyane".

Unless otherwise indicated, the financial data presented hereabove includes all credit institutions.
